**BALL MOTION**

Finished with a Royal Shine Polish, the Outcast skids very easily through the front part of the lane and provides a controllable hook motion on the backend of the lane all the way through the pins on light to medium oil lane conditions.

**REACTION SETUP**

The DV8 Outcast can be drilled using the standard drilling techniques developed for bowling balls with symmetric cores.

**BALL MAINTENANCE**

To reduce oil absorption and remove dirt from the surface of the ball, clean your ball with a cleaner designed for reactive bowling balls.

**WARRANTY INFO**

All DV8 bowling balls have been manufactured to the highest standards of workmanship and material in the bowling industry, and we warrant that they will be free of defects in materials and workmanship for a period of two years from the date of purchase.

**INCLUDES FREE SHOULDER SACK**
