

## VIOLENT COLLISION

DV8's first ball featuring HK22, the Brutal Collision, created a solid impact on the lanes and was a favorite among DV8 fans. We are excited to introduce DV8's latest innovation and a fantastic follow-up to the Brutal Collision, the Violent Collision. The Violent Collision is a stunning pearl that offers easier length and a sharper move on the backend, giving bowlers an exceptional option when Hellcat XLR8 and Brutal Collision are too much ball. The Violent Collision utilizes the same great core as previous Collision balls and has a new pearl version of HK22 called Havoc Pearl for easier length and a stronger backend. Get ready to witness a new level of domination as the Violent Collision takes your game to new heights.
